SECTION A
DEAR APPLICANT LETTER

REHABILITATION SERVICES ADMINISTRATION (RSA)

Dear Applicant:

The Secretary invites applications under the Automated Personalization Computing Project (herein referred to as the "APCP"). The APCP is funded by the Disability Innovation Fund as provided by the Consolidated Appropriations Act, 2014 (Pub. L. 113-76), as defined in section 7(20)(B) of the Rehabilitation Act of 1973, as amended, in accordance with section 437(d)(1) of the General Education Provisions Act (GEPA), 20 U.S.C. 1232(d)(1).

The purpose of this letter is to highlight several important components of your application. This letter should not be used as a substitute for a thorough review of the Notice Inviting Applications (NIA), which is published in the Federal Register, and detailed information and instructions contained in this Application Package.

COOPERATIVE AGREEMENT

The Department will award this grant as a cooperative agreement as authorized by 34 CFR 75.200 (b) (4). A cooperative agreement is a grant; however, in a cooperative agreement, there is substantial involvement between the executive agency (in this case the Department of Education) and the recipient during the grant period of performance. Upon award, RSA and the grant recipient will work together to develop this agreement. When preparing the budget and budget narrative, please ensure that there are funds available for key program and fiscal staff to travel to Washington, D.C. for a meeting for a day and a half in the fall of 2015.

ABSOLUTE PRIORITY

This priority establishes a cooperative agreement to implement a pilot project that would improve outcomes for individuals with disabilities by increasing access to information and communication technologies (ICT) through automatic personalization of needed assistive technology (AT). Under the APCP, an information technology (IT) infrastructure would be created to allow users of ICT to store preferences in the cloud or other technology, which then would allow supported Internet-capable devices they are using to automatically run their preferred AT solutions.

Specifically, the Department is seeking to implement a pilot demonstration of this concept which demonstrates how the automated personalization could follow a person across multiple sites and multiple devices.

-Please note that the NIA (located in Section C of this application) provides more detail about the Priority and what applicants must describe in the narrative. For example, in paragraph (h) of the Applicants Requirements section of the priority, applicants are required to describe a plan for addressing sustainability of the implemented model(s).

PRE-APPLICATION WEBINAR

RSA will conduct one Pre-Application Webinar on Wednesday, August 5, 2015, from 2:00 PM to 3:30 PM Eastern Time. The purpose of this webinar is to review the absolute priority, expectations and goal of the APCP, and the selection criteria. In addition, we will highlight some of the additional requirements and documentation that must be included in the application. Please note that this webinar does not serve as a substitute for reviewing the NIA and this Application Package in their entirety.

APPLICATION NARRATIVE

Part III of the application narrative is where you, the applicant, address the selection criteria used by reviewers in evaluating the application. Because of the limited time available to review applications and make a recommendation for funding, we strongly encourage applicants to limit the application narrative to no more than 75 pages, using the following standards:

- (1) A "page" is 8.5" x 11", on one side only, with 1" margins at the top, bottom, and both sides.
- (2) Double space (no more than three lines per vertical inch) all text in the application narrative, including titles, headings, footnotes, quotations, references, and captions, as well as all text in charts, tables, figures, and graphs.
- (3) Use a font that is either 12 point or larger or no smaller than 10 pitch (characters per inch).
- (4) Use one of the following fonts: Times New Roman, Courier, Courier New, or Arial.

ABSTRACT

A one-page double-spaced project abstract (see Section D of this Application Package) must contain:

- (1) Name of applicant (applicant serving as the lead entity on behalf of a proposed partnership, not the proposed partnership submitting the application).
- (2) Overview statement The abstract is a critical component of the proposal and it must highlight the purpose of the project, proposed number of individuals to be served each year, planned goals and objectives, target population, impact of project, and expected outcomes.
- (3) City and state where the lead entity is located.
- (4) The congressional district where the lead entity is located (number).
- (5) The name of the project director and the percentage of time the director will manage the project.

OPTIONAL MATERIALS

If you submit optional materials, such as resumes, a bibliography, or letters of support, please limit these materials to a total of no more than 50 pages.

SELECTION CRITERIA

Applicants should become familiar with the selection criteria contained in Section E of this Application Package. These criteria will be used by peer reviewers to evaluate all applications. Your application should respond to each identified criterion, since failure to do so will put your application at a significant disadvantage. Your narrative should clearly identify and address each of the selection criteria in the order they appear in the application package.

Reviewers of applications report that a narrative written in a format that follows the Selection Criteria greatly facilitates the review process. Such a format would appear and be titled as follows: (1) Significance of the Proposed Project; (2) Quality of Project Design; (3) Quality of Project Personnel; (4) Quality of the Management Plan; (5) Quality of the Project Evaluation; and (6) Strategy of Scale.

EDGAR

This grant is subject to the requirements of EDGAR at 34 CFR Parts 75, 77, 79, 81, 82, 84, 86, and 99. These regulations set forth all general rules affecting application submittal, review, grant awarding, and post-award administration of Department of Education grant programs.

This grant is subject to the requirements for "The OMB Guidelines to Agencies on Governmentwide Debarment and Suspension (Nonprocurement)," found in 2 CFR part 180, as adopted and amended as regulations of the Department in 2 CFR part 3485.

This grant is subject to the requirements for "The Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards," found in 2 CFR part 200, as adopted and amended in 2 CFR part 3474.

This grant is subject to the requirements for "Intergovernmental Review of Department of Education Programs and Activities," found in 34 CFR Part 79 of EDGAR. However, under 34 CFR 79.8(a), we waive the intergovernmental review in order to make an award by the end of FY 2015.

APPLICATION PROCEDURES

Applicants for multi-year projects are required to provide detailed budget information for each of the five project years and for the total grant. RSA requires annual performance reports, may require more frequent reporting, and uses those reports to determine progress. These reports must be submitted to the designated RSA project officer.

GRANTS.GOV APPLICATION SUBMISSION

Applications for grants under this competition must be submitted electronically using Grants.gov. Please read carefully the document that is included in Section F of this application package, which includes helpful tips about submitting electronically using the Grants.gov site. When using the electronic grants process, it is imperative that you do not wait until the last minute to submit your grant. Please note that you must follow the Application Procedures as described in the Federal Register notice announcing this grant competition. Information (including dates and times) about how to submit your application electronically or by mail or hand delivery (if you qualify for an exception to the electronic submission requirement as described in the Federal Register notice for this program) can also be found in Section F of this application package, Application Transmittal Instructions.

Applicants may contact Douglas Zhu, the competition manager, who may be reached at (202) 245-6037 or douglas.zhu@ed.gov to discuss any matters relating to this competition.

Sincerely,

Thomas E. Finch, Ph.D.

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purpose of the Disability Innovation
Fund, as provided by the Consolidated Appropriations Act, 2014
(Pub. L. 113-76), is to support innovative activities aimed at
improving the outcomes of "individuals with disabilities," as

defined in section 7(20)(B) of the Rehabilitation Act of 1973, as amended.

Priority: We are establishing this priority for the FY 2015 grant competition and any subsequent year in which we make awards from the list of unfunded applications from this competition, in accordance with section 437(d)(1) of the General Education Provisions Act (GEPA), 20 U.S.C. 1232(d)(1).

Absolute Priority: For FY 2015 and any subsequent year in which we make awards from the list of unfunded applications from this competition, this priority is an absolute priority. Under 34 CFR 75.105(c)(3) we consider only applications that meet this priority.

This priority is:

Disability Innovation Fund--Automated Personalization Computing Project.

Background:

In today's world, individuals with disabilities experience many barriers to accessing information and communication technologies (ICT) needed for education, training, and workforce participation, as well as for participation in the activities of daily living. For example, in order to meet the needs of a student with a disability, a school will often provide only a single computer, as customizing its software requires expert intervention and staff time. In this case, students cannot use

any other information technology (IT) within the learning environment, nor can they use these accommodations on a home or public library computer. Similarly, software licenses for computers within an educational or employment setting cannot follow individual users from school to college or from school to work, or to other environments.

Therefore, as a student, jobseeker, employee, or other user of ICT, an individual with a disability may be very limited in his or her ability to access and use critical information.

For some individuals with or without a disability, the interaction with complex sites and computers (e.g., email, social networking, and electronic voting) can be a source of anxiety and alienation, which may be compounded if there are also barriers to accessing computers and Web sites. Further, as more everyday services migrate online, from Web-enabled ticket kiosks to government services, college and job applications, and student loan services, individuals who need accommodations to use the Web are often left with few or no alternatives.

The Web itself also has barriers to access. Many Web sites and pages may be too complicated or visually busy for users to find the information they need; they may use complex language rather than language that is accessible to individuals with intellectual disabilities or low literacy skills; and they may

not include text-to-speech functionality or video description options for people who are blind or visually impaired.

It is essential to develop mechanisms to reduce barriers to accessing technology in order to ensure that everyone who faces these barriers, regardless of economic resources, can use ICT to access information, communities, and services for education, employment, and daily living.

The Department of Education (Department) believes that developing an IT infrastructure that allows individuals with disabilities easier access to ICT will ultimately provide better educational opportunities, ease transitions between school and the workforce, and improve productivity in the workplace.

The Department is therefore seeking to implement a pilot demonstration of automated personalization computing for individuals with disabilities. The demonstration must help users identify the assistive technology (AT) solutions and settings that work best for them (their "personalization") without the intervention of an AT specialist. Personalization could include, but is not limited to, font size or color, text-to-speech functionality, site simplification or simple language, translation from one language to another language, and audio volume. After identification of the optimal personalized features, the "personalization"--the accommodations or accessibility features--would be available reliably to the user

via the Web. Individuals with disabilities would then be able to access, on a secure basis, this computer information no matter where they are (at school, work, home, or in the community), and no matter the type of computer (e.g., desktop, laptop, tablet, smartphone, kiosk) or software platform (e.g., PC, Mac) they are using, as long as it is an APCP-enabled computer with Web access.

This project will require coordination among several different sectors: cloud or other technology platform providers, AT researchers and manufacturers, mainstream technology manufacturers, Federal agencies, individuals with disabilities, educators, employers, and disability advocacy organizations. Therefore, the Department will require applicants to establish a partnership or use an existing partnership. The applicant may include entities in the partnership that are not otherwise eligible (e.g., for profit entities) to apply, and we encourage cross-sector partnership with the potential to maximize the benefits both to individuals with disabilities and the participating partners.

The project has enormous potential to benefit all of these sectors, but care must be taken to ensure that the project benefits the intended market of individuals with disabilities. Federal involvement in developing this infrastructure will encourage continued innovation and investment by private sector

entities, help ensure that all individuals with disabilities reap the benefits of this technology, and ensure that data and personally identifiable information (PII) are protected.

This priority is:

Disability Innovation Fund--Automated Personalization Computing Project.

The purpose of this priority is to enter into a cooperative agreement to implement a pilot project that would improve outcomes for individuals with disabilities by increasing access to information and communication technologies (ICT) through automatic personalization of needed assistive technology (AT). Under the Automated Personalization Computing Project (APCP), an information technology (IT) infrastructure would be created to allow users of ICT to store preferences in the cloud or other technology, which then would allow supported Internet-capable devices they are using to automatically run their preferred AT solutions.

Using these stored preferences, along with information about the computer (e.g., type, operating system) and available AT solutions, the APCP would identify AT to meet the user's preferences and then configure the computer accordingly. This may require automatically configuring AT built into the mainstream technology computer itself or configuring external AT solutions to operate on the computer.

The Department is seeking to implement a pilot demonstration of this concept which demonstrates how the automated personalization could follow a person across multiple sites and multiple devices. The project must also demonstrate the scalability and sustainability of the implemented model(s).

Outcomes

The project is designed to achieve the following outcomes:

- (a) An APCP demonstration that is usable, complies with accessibility requirements (i.e., WCAG1 2.0 Level AA), and effectively automates personalization;
- (b) A reliable infrastructure that could be scaled well beyond the demonstration implemented under this project;
- (c) Evidence that the personalization is transferrable in such a way that it can follow a person from one device to another and from one site to another (e.g., from college to career);
- (d) A set of metrics, along with the strategies and the computer programs needed to collect and analyze data, that can be used to improve, scale up, and sustain the APCP; and
- (e) A detailed plan for sustainability of the implemented model(s).

Project Requirements

1 See www.w3.org/TR/WCAG20/ for WCAG 2.0 accessibility requirements.

(a) Target populations. The pilot project must be designed to address the ICT and automated personalization needs of either or both of the following target populations: (1) youth with disabilities transitioning from secondary to postsecondary education or employment, or (2) individuals with disabilities who are clients of American Job Centers or State vocational rehabilitation (VR) agencies.

(b) Demonstration sites. The personalization system must have access to the preferences of the user and to the computing environment of each specific device to be personalized so that it can determine how best to adapt that device to meet a user's preferences. The demonstration must include sites that show how the APCP could work in a variety of computing environments--from those that freely release information about the computing environment to those that keep such information secure. Sites across multiple organizations and settings must be involved in this project.

(c) Computers to be personalized. Personalization must be accomplished on mainstream hardware and operating systems that are currently in use at the selected sites. Multiple hardware platforms with multiple operating systems must be used in this demonstration.

(d) AT included. The personalization must use a variety of AT solutions, including those from traditional AT

manufacturers, as well as free open-source solutions and solutions built into the operating systems of the computers involved.

(e) Privacy and security of users and computers to be personalized. Privacy must be guaranteed for the users of the personalization system (e.g., the system must be compliant with the Health Insurance Portability and Accountability Act (HIPAA)² and Family Educational Rights and Privacy Act (FERPA)³), especially their stored preferences. Additionally, the security of the computers to be personalized must be maintained.

(f) Appropriate security controls applied. The implementation must ensure that the system: (1) follows the risk assessment framework from the National Institute of Standards and Technology (NIST) described in NIST SP 800-37 to determine the risk posture; (2) applies the controls in NIST SP 800-53a (revision 4) correlated with the risk level; and (3) assures the application of other security controls, standards, and requirements appropriate for the security of information managed by the system.

(g) Reliability. The demonstration must be designed so that users will be assured of access at any time.

² See www.hhs.gov/ocr/privacy/hipaa/administrative/statute/ for more information on HIPAA requirements.

³ See www2.ed.gov/policy/gen/guid/fpco/ferpa/index.html for more information on FERPA requirements.

(h) Involvement of stakeholders. The applicant must involve all affected stakeholder groups (e.g., cloud or other technology platform providers, AT researchers and manufacturers, mainstream technology manufacturers, Federal agencies, individuals with disabilities, and disability advocacy organizations) in all aspects of the project including, but not limited to, project development, design, implementation, and development of sustainability plans.

(i) Advisory committee. The grantee must establish an advisory committee that meets at least semi-annually. The committee must include, but is not limited to, individuals with disabilities, local educational agencies or State educational agencies, and institutions of higher education (IHEs), State VR and workforce development agencies, businesses, and AT manufacturers. The committee will work on the project development, methods for engagement with international standards organizations and the Web and ICT community, and performance review.

(j) Federal steering committee. The grantee must work with a Federal steering committee, consisting of federal employees only, (to be constituted by RSA) that provides support, guidance, and oversight of the project to ensure delivery of project outputs and achievement of project outcomes. At a minimum, the committee will:

- (1) Provide input to the development of the project, including input on refining the evaluation plan;
- (2) Identify and monitor risks;
- (3) Monitor timelines and the quality of the project;
- (4) Provide technical assistance; and
- (5) Leverage resources to support the project moving forward.

Application Requirements

In order to be considered under this priority, an applicant must meet the following requirements:

(a) Address the technical requirements for the deployment of the system in a large-scale demonstration of users and how the users will retrieve their stored preferences. To meet this requirement, the applicant must describe--

(1) The system architecture indicating necessary components and how they interact with the computing environment to be personalized;

(2) The technical requirements in terms of processing power, data storage and retrieval, networking and bandwidth capacity, and methods to procure the necessary services;

(3) The methods by which users will access their stored preferences and personalize the computer being used and the related security measures; and

(4) The methods to ensure data deletion after users permanently withdraw from the system.

(b) Describe how it will incorporate all of the project components.

(c) Describe how it will assure reliability, security, usability, and ethical administration in a large-scale demonstration. To meet this requirement the applicant must describe its plan for--

(1) Privacy and security measures to safeguard user data;

(2) Security measures to safeguard the computers to be personalized;

(3) The development of a board of ethics to determine privacy considerations related to the project for individuals with specialized needs and their caregivers (e.g., access to the location data of cognitively disabled individuals);

(4) A policy regarding the appropriate use of metadata and derived data from the user's activity; and

(5) Metric-based solutions for reliability of the user data, including a description of how the user's data will be stored and copied to ensure a current and up-to-date profile.

(d) Describe how it will build business systems (e.g., work with stakeholders to define requirements). To meet this requirement the applicant must describe how and when user and

stakeholder requirements will be considered in the project plan and major milestones identified.

(e) Describe how it will build systems to align existing AT products and mainstream access features. To meet this requirement the applicant must describe--

(1) A project plan that identifies possible current products that can be used in a test bed environment to construct these systems;

(2) A plan that describes how to work with AT manufacturers to develop licensing models consistent with this project;

(3) A process for identification and incorporation of new products or innovative use of existing products; and

(4) A plan for involving all stakeholders in addressing issues that arise when multiple AT personalization solutions exist (e.g., when a user prefers a particular screen reader but multiple screen readers with different features and price points are available).

(f) Describe methods for defining applicable metrics and reliable measurement techniques and tools that can be implemented by multiple stakeholders and independent assessment organizations.

(g) Describe an evaluation plan that addresses the methods for evaluating this project, including the metrics and

instruments to be used in the evaluation and data to be collected.

(h) Describe a plan for addressing sustainability of the implemented model(s).

(i) Identify how it will establish a partnership or utilize an existing partnership. Documentation must include, at a minimum: (1) evidence of an existing Memorandum of Understanding or a Letter of Intent to establish a partnership; (2) a description of each proposed partner's anticipated commitment of financial or in-kind resources (if any); (3) how each proposed partner's current and proposed activities align with those of the proposed project; (4) how each proposed partner will be held accountable under the proposed governance structure; and (5) how the applicant together with its proposed partners has a demonstrable record of working together with key stakeholders such as major ICT providers, agencies that serve people with disabilities, and organizations of people with disabilities.

Waiver of Proposed Rulemaking: Under the Administrative Procedure Act (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on proposed priorities. Section 437(d)(1) of GEPA, however, allows the Secretary to exempt from rulemaking requirements, regulations governing the first grant competition under new or substantially

revised program authority. This is the first grant competition for this program under the Consolidated Appropriations Act, 2014, and therefore qualifies for this exemption. In order to ensure timely grant awards, the Secretary has decided to forego public comment on the priority under section 437(d)(1) of GEPA. This priority will apply to the FY 2015 grant competition and any subsequent year in which we make awards from the list of unfunded applicants from this competition.

Program Authority: Consolidated Appropriations Act, 2014 (Pub. L. 113-76).

Applicable Regulations: (a) The Education Department General Administrative Regulations in 34 CFR parts 75, 77, 79, 81, 82, 84, 86, and 99. (b) The OMB Guidelines to Agencies on Governmentwide Debarment and Suspension (Nonprocurement) in 2 CFR part 180, as adopted and amended as regulations of the Department in 2 CFR part 3485. (c) The Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards in 2 CFR part 200, as adopted and amended in 2 CFR part 3474.

and

d. Maintain an active SAM registration with current information while your application is under review by the Department and, if you are awarded a grant, during the project period.

You can obtain a DUNS number from Dun and Bradstreet. A DUNS number can be created within one to two business days.

If you are a corporate entity, agency, institution, or organization, you can obtain a TIN from the Internal Revenue Service. If you are an individual, you can obtain a TIN from the Internal Revenue Service or the Social Security Administration. If you need a new TIN, please allow 2-5 weeks for your TIN to become active.

The SAM registration process can take approximately seven business days, but may take upwards of several weeks, depending on the completeness and accuracy of the data entered into the SAM database by an entity. Thus, if you think you might want to apply for Federal financial assistance under a program administered by the Department, please allow sufficient time to obtain and register your DUNS number and TIN. We strongly recommend that you register early.

Note: Once your SAM registration is active, you will need to allow 24 to 48 hours for the information to be available in

Grants.gov and before you can submit an application through Grants.gov.

If you are currently registered with SAM, you may not need to make any changes. However, please make certain that the TIN associated with your DUNS number is correct. Also note that you will need to update your registration annually. This may take three or more business days to complete.

Information about SAM is available at www.SAM.gov. To further assist you with obtaining and registering your DUNS number and TIN in SAM or updating your existing SAM account, we have prepared a SAM.gov Tip Sheet, which you can find at: <http://www2.ed.gov/fund/grant/apply/sam-faqs.html>.

In addition, if you are submitting your application via Grants.gov, you must (1) be designated by your organization as an Authorized Organization Representative (AOR); and (2) register yourself with Grants.gov as an AOR. Details on these steps are outlined at the following Grants.gov Web page: www.grants.gov/web/grants/register.html.

7. Other Submission Requirements: Applications for grants under this competition must be submitted electronically unless you qualify for an exception to this requirement in accordance with the instructions in this section.

a. Electronic Submission of Applications.

Applications for grants under the Automated Personalization Computing Project, CFDA number 84.421A, must be submitted electronically using the Governmentwide Grants.gov Apply site at www.Grants.gov. Through this site, you will be able to download a copy of the application package, complete it offline, and then upload and submit your application. You may not email an electronic copy of a grant application to us.

We will reject your application if you submit it in paper format unless, as described elsewhere in this section, you qualify for one of the exceptions to the electronic submission requirement and submit, no later than two weeks before the application deadline date, a written statement to the Department that you qualify for one of these exceptions. Further information regarding calculation of the date that is two weeks before the application deadline date is provided later in this section under Exception to Electronic Submission Requirement.

You may access the electronic grant application for the Automated Personalization Computing Project competition at www.Grants.gov. You must search for the downloadable application package for this competition by the CFDA number. Do not include the CFDA number's alpha suffix in your search (e.g., search for 84.421, not 84.421A).

Please note the following:

- When you enter the Grants.gov site, you will find information about submitting an application electronically through the site, as well as the hours of operation.

- Applications received by Grants.gov are date and time stamped. Your application must be fully uploaded and submitted and must be date and time stamped by the Grants.gov system no later than 4:30:00 p.m., Washington, DC time, on the application deadline date. Except as otherwise noted in this section, we will not accept your application if it is received--that is, date and time stamped by the Grants.gov system--after 4:30:00 p.m., Washington, DC time, on the application deadline date. We do not consider an application that does not comply with the deadline requirements. When we retrieve your application from Grants.gov, we will notify you if we are rejecting your application because it was date and time stamped by the Grants.gov system after 4:30:00 p.m., Washington, DC time, on the application deadline date.

- The amount of time it can take to upload an application will vary depending on a variety of factors, including the size of the application and the speed of your Internet connection. Therefore, we strongly recommend that you do not wait until the application deadline date to begin the submission process through Grants.gov.

- You should review and follow the Education Submission Procedures for submitting an application through Grants.gov that are included in the application package for this competition to ensure that you submit your application in a timely manner to the Grants.gov system. You can also find the Education Submission Procedures pertaining to Grants.gov under News and Events on the Department's G5 system home page at www.G5.gov.

- You will not receive additional point value because you submit your application in electronic format, nor will we penalize you if you qualify for an exception to the electronic submission requirement, as described elsewhere in this section, and submit your application in paper format.

- You must submit all documents electronically, including all information you typically provide on the following forms: the Application for Federal Assistance (SF 424), the Department of Education Supplemental Information for SF 424, Budget Information--Non-Construction Programs (ED 524), and all necessary assurances and certifications.

- You must upload any narrative sections and all other attachments to your application as files in a PDF (Portable Document) read-only, non-modifiable format. Do not upload an interactive or fillable PDF file. If you upload a file type other than a read-only, non-modifiable PDF or submit a password-protected file, we will not review that material.

- Your electronic application must comply with any page-limit requirements described in this notice.

- After you electronically submit your application, you will receive from Grants.gov an automatic notification of receipt that contains a Grants.gov tracking number. (This notification indicates receipt by Grants.gov only, not receipt by the Department.) The Department then will retrieve your application from Grants.gov and send a second notification to you by email. This second notification indicates that the Department has received your application and has assigned your application a PR/Award number (an ED-specified identifying number unique to your application).

- We may request that you provide us original signatures on forms at a later date.

Application Deadline Date Extension in Case of Technical Issues with the Grants.gov System: If you are experiencing problems submitting your application through Grants.gov, please contact the Grants.gov Support Desk, toll free, at 1-800-518-4726. You must obtain a Grants.gov Support Desk Case Number and must keep a record of it.

If you are prevented from electronically submitting your application on the application deadline date because of technical problems with the Grants.gov system, we will grant you an extension until 4:30:00 p.m., Washington, DC time, the

following business day to enable you to transmit your application electronically or by hand delivery. You also may mail your application by following the mailing instructions described elsewhere in this notice.

If you submit an application after 4:30:00 p.m., Washington, DC time, on the application deadline date, please contact the person listed under For Further Information Contact in section VII of this notice and provide an explanation of the technical problem you experienced with Grants.gov, along with the Grants.gov Support Desk Case Number. We will accept your application if we can confirm that a technical problem occurred with the Grants.gov system and that that problem affected your ability to submit your application by 4:30:00 p.m., Washington, DC time, on the application deadline date. The Department will contact you after a determination is made on whether your application will be accepted.

Note: The extensions to which we refer in this section apply only to the unavailability of, or technical problems with, the Grants.gov system. We will not grant you an extension if you failed to fully register to submit your application to Grants.gov before the application deadline date and time or if the technical problem you experienced is unrelated to the Grants.gov system.

Exception to Electronic Submission Requirement: You qualify for an exception to the electronic submission requirement, and may submit your application in paper format, if you are unable to submit an application through the Grants.gov system because--

- You do not have access to the Internet; or
- You do not have the capacity to upload large documents to the Grants.gov system;

and

- No later than two weeks before the application deadline date (14 calendar days or, if the fourteenth calendar day before the application deadline date falls on a Federal holiday, the next business day following the Federal holiday), you mail or fax a written statement to the Department, explaining which of the two grounds for an exception prevents you from using the Internet to submit your application.

If you mail your written statement to the Department, it must be postmarked no later than two weeks before the application deadline date. If you fax your written statement to the Department, we must receive the faxed statement no later than two weeks before the application deadline date.

Address and mail or fax your statement to: Douglas Zhu,
U.S. Department of Education, 550 12th Street, SW., room 5051,
PCP, Washington, DC 20202-2800. FAX: (202) 245-7591.

Your paper application must be submitted in accordance with the mail or hand delivery instructions described in this notice.

b. Submission of Paper Applications by Mail.

If you qualify for an exception to the electronic submission requirement, you may mail (through the U.S. Postal Service or a commercial carrier) your application to the Department. You must mail the original and two copies of your application, on or before the application deadline date, to the Department at the following address:

If you mail your application through the U.S. Postal Service, we do not accept either of the following as proof of mailing:

- (1) A private metered postmark.
- (2) A mail receipt that is not dated by the U.S. Postal Service.

If your application is postmarked after the application deadline date, we will not consider your application.

Note: The U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, you should check with your local post office.

c. Submission of Paper Applications by Hand Delivery.

If you qualify for an exception to the electronic submission requirement, you (or a courier service) may deliver your paper application to the Department by hand. You must deliver the original and two copies of your application by hand, on or before the application deadline date, to the Department at the following address:

(2) The Application Control Center will mail to you a notification of receipt of your grant application. V. Application Review Information

1. Selection Criteria: The selection criteria for this competition are from 34 CFR 75.210 and are listed in the application package.

2. Review and Selection Process: We remind potential applicants that in reviewing applications in any discretionary grant competition, the Secretary may consider, under 34 CFR 75.217(d)(3), the past performance of the applicant in carrying out a previous award, such as the applicant's use of funds, achievement of project objectives, and compliance with grant

conditions. The Secretary may also consider whether the applicant failed to submit a timely performance report or submitted a report of unacceptable quality.

In addition, in making a competitive grant award, the Secretary also requires various assurances including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department of Education (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

3. Special Conditions: Under 2 CFR 3474.10, the Secretary may impose special conditions and, in appropriate circumstances, high-risk conditions on a grant if the applicant or grantee is not financially stable; has a history of unsatisfactory performance; has a financial or other management system that does not meet the standards in 2 CFR part 200, subpart D; has not fulfilled the conditions of a prior grant; or is otherwise not responsible.

VI. Award Administration Information

1. Award Notices: If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN); or we may send you an email containing a link to access an electronic version of your GAN. We may notify you informally, also.

If your application is not evaluated or not selected for funding, we notify you.

2. Administrative and National Policy Requirements: We identify administrative and national policy requirements in the application package and reference these and other requirements in the Applicable Regulations section of this notice.

We reference the regulations outlining the terms and conditions of an award in the Applicable Regulations section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. Reporting: (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. You must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For

specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

4. Performance Measures: The Government Performance and Results Act of 1993 (GPRA) directs Federal departments and agencies to improve the effectiveness of programs by engaging in strategic planning, setting outcome-related goals for programs, and measuring program results against those goals.

The goal of the APCP is to develop an IT infrastructure on which Internet-capable computers automatically run AT solutions customized for individual users with disabilities according to their preferences. These preferences must be established with minimal effort on the part of the user. The result is a personalized interface automatically and transparently running on any APCP-enabled computer after log-in, wherever located.

Pursuant to GPRA, the Department is in the process of developing performance measures for this program to assess the success of the grantee in meeting the goals of this project. In general, these measures will assess the quality, relevance, and usefulness of the pilot implemented by this project, as well as the performance of this project in meeting the project requirements and achieving outcomes established in this notice and specified annually in the cooperative agreement. Those project requirements and outcomes will include, but not be limited to:

(a) Developing an APCP demonstration that is usable (e.g., such that the percentage of individuals with disabilities who have access to the APCP who use the system and the percentage of such individuals who continue to use the system increase over a specific period of time), complies with accessibility requirements (i.e., WCAG 2.0 Level AA), and effectively automates personalization;

(b) Establishing a reliable infrastructure that could be scaled well beyond the pilot implemented under this project;

(c) Collecting evidence that the personalization is transferrable in such a way that it can follow a person from one device to another and from one site to another (e.g., by tracking the percentage of users who utilize the APCP on multiple devices or at multiple sites);

(d) Developing and implementing a set of metrics, along with the strategies and the computer programs needed to collect and analyze data, that can be used to improve, scale up, and sustain the APCP; and

(e) Developing a plan for sustainability of the implemented model(s).

Measures developed by the Federal steering committee (in consultation with the grantee) will also be included in the cooperative agreement to ensure the grantee's progress in deploying concepts that show promise of sustaining the

deployment beyond this grant and scaling beyond this pilot project in the future.

The grantee will be required to collect and annually report data related to its performance on these measures in the project's annual and final performance reports to the Department. The Department may require more frequent reporting. The annual performance reports must include both quantitative and qualitative information sufficient to assess the quality, relevance, and usefulness of the implementation of the pilot project and the objectives and outcomes for that year. The data used must be valid and verifiable.

5. Continuation Awards: In making a continuation award under 34 CFR 75.253, the Secretary considers, among other things: whether a grantee has made substantial progress in achieving the goals and objectives of the project; whether the grantee has expended funds in a manner that is consistent with its approved application and budget; and, if the Secretary has established performance measure requirements, the performance targets in the grantee's approved application. In making a continuation grant, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or

activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

ATTENTION – Adobe Forms and PDF Files Required

Applications submitted to Grants.gov for the Department of Education will be posted using Adobe forms.

Therefore, applicants will need to download the latest version of Adobe reader (at least Adobe Reader 10.1.14).

(Please note that in early 2013, Grants.gov discovered an issue with the newest version of Adobe Reader XI but it was subsequently resolved.) Information on computer and operating system compatibility with Adobe and links to download the latest version is available on Grants.gov at this link: [compatibility table](#). We strongly recommend

that you review these details on www.Grants.gov before completing and submitting your application. In addition, applicants should submit their application a day or two in advance of the closing date as detailed below. Also, applicants are required to upload their attachments in .pdf format only. (See details below under “Attaching Files – Additional Tips.”) If you have any questions regarding this matter please email the Grants.gov Contact Center at support@grants.gov or call 1-800-518-4726.

- 1) **REGISTER EARLY** – Grants.gov registration involves many steps including registration on SAM (www.sam.gov) which may take approximately one week to complete, but could take upwards of several weeks to complete, depending upon the completeness and accuracy of the data entered into the SAM database by an applicant. You may begin working on your application while completing the registration process, but you cannot submit an application until all of the Registration steps are complete. Please note that once your SAM registration is active, it will take 24-48 hours for the information to be available in Grants.gov, and before you can submit an application through Grants.gov. For detailed information on the Registration Steps, please go to: <http://www.grants.gov/web/grants/register.html> [Note: Your organization will need to update its SAM registration annually (formerly Central Contractor Registry (CCR).)]

Primary information about SAM is available at www.sam.gov. However, to further assist you with obtaining and registering your DUNS number and TIN in SAM or updating your existing SAM account the Department of Education has prepared a SAM.gov Tip Sheet which you can find at: <http://www2.ed.gov/fund/grant/apply/sam-faqs.html>

- 2) **SUBMIT EARLY** – **We strongly recommend that you do not wait until the last day to submit your application. Grants.gov will put a date/time stamp on your application and then process it after it is fully uploaded.** The time it takes to upload an application will vary depending on a number of factors including the size of the application and the speed of your Internet connection, and the time it takes Grants.gov to process the application will vary as well. If Grants.gov rejects your application (see step three below), you will need to resubmit successfully to Grants.gov before 4:30:00 p.m. Washington, DC time on the deadline date.

Note: To submit successfully, you must provide the DUNS number on your application that was used when you registered as an Authorized Organization Representative (AOR) on Grants.gov. This DUNS number is typically the same number used when your organization registered with the SAM (formerly CCR -Central Contractor Registry). If you do not enter the same DUNS number on your application as the DUNS you registered with, Grants.gov will reject your application.

- 3) **VERIFY SUBMISSION IS OK** – You will want to verify that Grants.gov received your application submission on time and that it was validated successfully. To see the date/time your application was received, login to Grants.gov and click on the Track My Application link. For a successful submission, the date/time received should be earlier than 4:30:00 p.m. Washington, DC time, on the deadline date, AND the application status should be: Validated, Received by Agency, or Agency Tracking Number Assigned. Once the Department of Education receives your application from Grants.gov, an Agency Tracking Number (PR/award number) will be assigned to your application and will be available for viewing on Grants.gov’s Track My Application link.

If the date/time received is later than 4:30:00 p.m. Washington, D.C. time, on the deadline date, your application is late. If your application has a status of “Received” it is still awaiting validation by Grants.gov. Once validation is complete, the status will either change to “Validated” or “Rejected with Errors.” If the status is “Rejected with Errors,” your application has not been received successfully. Some of the reasons Grants.gov may reject an application can be found on the Grants.gov site: <http://www.grants.gov/web/grants/applicants/grant-application-process/application-statuses.html>. For more detailed information on troubleshooting Adobe errors, you can review the Adobe Reader Error Messages document at <http://www.grants.gov/web/grants/support/technical-support/troubleshooting/encountering-error-messages.html>. If you discover your application is late or has been rejected, please see the instructions below. Note: You will receive a series of confirmations both online and via e-mail about the

status of your application. Please do not rely solely on e-mail to confirm whether your application has been received timely and validated successfully.

Submission Problems – What should you do?

If you have problems submitting to Grants.gov before the closing date, please contact Grants.gov Customer Support at 1-800-518-4726 or <http://www.grants.gov/web/grants/about/contact-us.html>, or access the Grants.gov Self-Service web portal at: <https://grants-portal.psc.gov/Welcome.aspx?pt=Grants>

If electronic submission is optional and you have problems that you are unable to resolve before the deadline date and time for electronic applications, please follow the transmittal instructions for hard copy applications in the Federal Register notice and get a hard copy application postmarked by midnight on the deadline date.

If electronic submission is required, you must submit an electronic application before 4:30:00 p.m., unless you follow the procedures in the Federal Register notice and qualify for one of the exceptions to the electronic submission requirement and submit, no later than two weeks before the application deadline date, a written statement to the Department that you qualify for one of these exceptions. (See the Federal Register notice for detailed instructions.)

Helpful Hints When Working with Grants.gov

Please note, once you download an application from Grants.gov, you will be working offline and saving data on your computer. Please be sure to note where you are saving the Grants.gov file on your computer. You will need to logon to Grants.gov to upload and submit the application. **You must provide the DUNS number on your application that was used when you registered as an Authorized Organization Representative (AOR) on Grants.gov.**

Please go to <http://www.grants.gov/web/grants/about/contact-us.html> for help with Grants.gov. For additional tips related to submitting grant applications, please refer to the Grants.gov Submit Application FAQs found on the Grants.gov <http://www.grants.gov/web/grants/support/general-support/faqs.html>.

Dial-Up Internet Connections

When using a dial up connection to upload and submit your application, it can take significantly longer than when you are connected to the Internet with a high-speed connection, e.g. cable modem/DSL/T1. While times will vary depending upon the size of your application, it can take a few minutes to a few hours to complete your grant submission using a dial up connection. **If you do not have access to a high-speed connection and electronic submission is required, you may want to consider following the instructions in the Federal Register notice to obtain an exception to the electronic submission requirement no later than two weeks before the application deadline date.** (See the Federal Register notice for detailed instructions.)

MAC Users

For MAC compatibility information, review the Operating System Platform Compatibility Table at the following Grants.gov link: <http://www.grants.gov/web/grants/support/technical-support/recommended-software.html>. **If electronic submission is required and you are concerned about your ability to submit electronically as a non-windows user, please follow instructions in the Federal Register notice to obtain an exception to the electronic submission requirement no later than two weeks before the application deadline date.** (See the Federal Register notice for detailed instructions.)

Attaching Files – Additional Tips

Please note the following tips related to attaching files to your application, especially the requirement that applicants **only include read-only, non-modifiable .PDF files** in their application:

1. Ensure that you attach **.PDF files only** for any attachments to your application, and they must be in a **read-only, non-modifiable format**. PDF files are the only Education approved file type accepted as detailed in the Federal Register application notice. Applicants must submit individual .PDF files only when attaching files to their application. Specifically, the Department will not accept any attachments that contain files within a file, such as PDF Portfolio files, or an interactive or fillable .PDF file. Any attachments uploaded that are not .PDF files or are password protected files will not be read.

2. Grants.gov cannot process an application that includes two or more files that have the same name within a grant submission. Therefore, each file uploaded to your application package should have a unique file name.
3. When attaching files, applicants should follow the guidelines established by Grants.gov on the size and content of file names. Uploaded files must be less than 50 characters, contain no spaces, no special characters (example: -, &, *, %, /, #, \) including periods (.), blank spaces and accent marks. Applications submitted that do not comply with the Grants.gov guidelines will be rejected at Grants.gov and not forwarded to the Department.
4. Applicants should limit the size of their file attachments. Documents submitted that contain graphics and/or scanned material often greatly increase the size of the file attachments and can result in difficulties opening the files. For reference, the average discretionary grant application package totals 1 to 2 MB. Therefore, you may want to check the total size of your package before submission.

SUPPLEMENTAL INFORMATION FOR SF 424

(Attachment to Instructions for Supplemental Information for SF 424)

DEFINITIONS

Novice Applicant (See 34 CFR 75.225).

For discretionary grant programs under which the Secretary gives special consideration to novice applications, a novice applicant means any applicant for a grant from ED that—

- Has never received a grant or subgrant under the program from which it seeks funding;
- Has never been a member of a group application, submitted in accordance with 34 CFR 75.127-75.129, that received a grant under the program from which it seeks funding; and
- Has not had an active discretionary grant from the Federal government in the five years before the deadline date for applications under the program. For the purposes of this requirement, a grant is active until the end of the grant's project or funding period, including any extensions of those periods that extend the grantee's authority to obligate funds.

In the case of a group application submitted in accordance with 34 CFR 75.127-75.129, a group includes only parties that meet the requirements listed above.

PROTECTION OF HUMAN SUBJECTS IN RESEARCH

I. DEFINITIONS AND EXEMPTIONS

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department's regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Research

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as “a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge.” *If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable*

knowledge it is research. Activities which meet this definition constitute research whether or not they are conducted or supported under a program that is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Human Subject

The regulations define human subject as “a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information.”

(1) If an activity involves obtaining information about a living person by manipulating that person or that person's environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met.

(2) If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met. [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the **only** involvement of human subjects will be in one or more of the following six categories of **exemptions** are not covered by the regulations:

- (1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or

the comparison among instructional techniques, curricula, or classroom management methods.

- (2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects' responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects' financial standing, employability, or reputation. ***If the subjects are children, exemption 2 applies only to research involving educational tests and observations of public behavior when the investigator(s) do not participate in the activities being observed. Exemption 2 does not apply if children are surveyed or interviewed or if the research involves observation of public behavior and the investigator(s) participate in the activities being observed.*** [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

II. Instructions for Exempt and Nonexempt Human Subjects Research Narratives

If the applicant marked "Yes" for Item 3 of Department of Education Supplemental Information for SF 424, the applicant must provide a human subjects "exempt research" or "nonexempt research" narrative. Insert the narrative(s) in the space provided. If you have multiple projects and need to provide more than one narrative, be sure to label each set of responses as to the project they address.

A. Exempt Research Narrative.

If you marked "Yes" for item 3 a. and designated exemption numbers(s), provide the "exempt research" narrative. The narrative must contain sufficient information about the involvement of human subjects in the proposed research to allow a determination by ED that the designated exemption(s) are appropriate. The narrative must be succinct.

B. Nonexempt Research Narrative.

If you marked "No" for item 3 a. you must provide the "nonexempt research" narrative. The narrative must address the following seven points. Although no specific page limitation applies to this section of the application, be succinct.

Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) **Recruitment and Informed Consent:**

Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the circumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) **Potential Risks:**

Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

Also, where appropriate, describe the provisions for

monitoring the data collected to ensure the safety of the subjects.

(6) **Importance of the Knowledge to be Gained:**

Discuss the importance of the knowledge gained or to be gained as a result of the proposed research. Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

[Attach separate sheet(s)] Pay attention to applicable program specific instructions, if attached.

1. Provide an itemized budget breakdown, and justification by project year, for each budget category listed in Sections A and B. For grant projects that will be divided into two or more separately budgeted major activities or sub-projects, show for each budget category of a project year the breakdown of the specific expenses attributable to each sub-project or activity.

3. If you are requesting reimbursement for indirect costs on line 10, this information is to be completed by your Business Office. Specify the estimated amount of the base to which the indirect cost rate is applied and the total indirect expense. Depending on the grant program to which you are applying and/or your approved Indirect Cost Rate Agreement, some direct cost budget categories in your grant application budget may not be included in the base and multiplied by your indirect cost rate. For example, you must multiply the indirect cost rates of "Training grants" (34 CFR 75.562) and grants under programs with "Supplement not Supplant" requirement ("Restricted Rate" programs) by a "modified total direct cost" (MTDC) base (34 CFR 75.563 or 76.563). Please indicate which costs are included and which costs are excluded from the base to which the indirect cost rate is applied.

When calculating indirect costs (line 10) for "Training grants" or grants under "Restricted Rate" programs, you must refer to the information and examples on ED's Web site at:

www.ed.gov/fund/grant/apply/appforms/appforms.html.

NOTICE TO ALL APPLICANTS

The purpose of this enclosure is to inform you about a new provision in the Department of Education's General Education Provisions Act (GEPA) that applies to applicants for new grant awards under Department programs. This provision is Section 427 of GEPA, enacted as part of the Improving America's Schools Act of 1994 (Public Law (P.L.) 103-382).

To Whom Does This Provision Apply?

Section 427 of GEPA affects applicants for new grant awards under this program.

ALL APPLICANTS FOR NEW AWARDS MUST INCLUDE INFORMATION IN THEIR APPLICATIONS TO ADDRESS THIS NEW PROVISION IN ORDER TO RECEIVE FUNDING UNDER THIS PROGRAM.

(If this program is a State-formula grant program, a State needs to provide this description only for projects or activities that it carries out with funds reserved for State-level uses. In addition, local school districts or other eligible applicants that apply to the State for funding need to provide this description in their applications to the State for funding. The State would be responsible for ensuring that the school district or other local entity has submitted a sufficient section 427 statement as described below.)

What Does This Provision Require?

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs. This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, you should determine whether these or other barriers may prevent your students, teachers, etc. from such access or participation in, the Federally-funded project or activity. The description in your application of steps to be taken to overcome these barriers need not be lengthy; you may provide a clear and succinct description of how you plan to address those barriers that are applicable to your circumstances. In addition, the information may be provided in a single narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for Federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve to high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it to eliminate barriers it identifies.

What are Examples of How an Applicant Might Satisfy the Requirement of This Provision?

The following examples may help illustrate how an applicant may comply with Section 427.

- (1) An applicant that proposes to carry out an adult literacy project serving, among others, adults with limited English proficiency, might describe in its application how it intends to distribute a brochure about the proposed project to such potential participants in their native language.
- (2) An applicant that proposes to develop instructional materials for classroom use might describe how it will make the materials available on audio tape or in braille for students who are blind.
- (3) An applicant that proposes to carry out a model science program for secondary students and is concerned that girls may be less likely than boys to enroll in the course, might indicate how it intends to conduct "outreach" efforts to girls, to encourage their enrollment.

We recognize that many applicants may already be implementing effective steps to ensure equity of access and participation in their grant programs, and we appreciate your cooperation in responding to the requirements of this provision.

ESTIMATED BURDEN STATEMENT FOR GEPA REQUIREMENTS

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. Public reporting burden for this collection of information is estimated to average 1.5 hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The obligation to respond to this collection is required to obtain or retain benefit (Public Law 103-382). Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the U.S. Department of Education, 400 Maryland Ave., SW, Washington, DC 20210-4537 or email ICDocketMgr@ed.gov and reference the OMB Control Number 1894-0005.

PROGRAM PERFORMANCE MEASURES UNDER THE GOVERNMENT PERFORMANCE AND RESULTS ACT (GPRA)

WHAT IS GPRA?

The Government Performance and Results Act of 1993 is a straightforward statute that requires all Federal agencies to manage their activities with attention to the consequences of those activities. Each agency is to clearly state what it intends to accomplish, identify the resources required, and periodically report its progress to the Congress. In doing so, it is expected that GPRA will contribute to improvements in accountability for the expenditures of public funds, improve Congressional decision-making through more objective information on the effectiveness of Federal programs, and promote a new government focus on results, service delivery, and customer satisfaction.

WHAT ARE THE GPRA MEASURES FOR THE AUTOMATED PERSONALIZATION COMPUTING PROJECT?

The Government Performance and Results Act of 1993 (GPRA) directs Federal departments and agencies to improve the effectiveness of programs by engaging in strategic planning, setting outcome-related goals for programs, and measuring program results against those goals.

The goal of the APCP is to develop an IT infrastructure on which Internet-capable computers automatically run AT solutions customized for individual users with disabilities according to their preferences. These preferences must be established with minimal effort on the part of the user. The result is a personalized interface automatically and transparently running on any APCP-enabled computer after log-in, wherever located.

Pursuant to GPRA, the Department is in the process of developing performance measures for this program to assess the success of the grantee in meeting the goals of this project. In general, these measures will assess the quality, relevance, and usefulness of the pilot implemented by this project, as well as the performance of this project in meeting the project requirements and achieving outcomes established in this notice and specified annually in the cooperative agreement. Those project requirements and outcomes will include, but not be limited to:

- (a) Developing an APCP demonstration that is usable (e.g., such that the percentage of individuals with disabilities who have access to the APCP who use the system and the percentage of such individuals who continue to use the system increase over a specific period of time), complies with accessibility requirements (i.e., WCAG 2.0 Level AA), and effectively automates personalization;
- (b) Establishing a reliable infrastructure that could be scaled well beyond the pilot implemented under this project;
- (c) Collecting evidence that the personalization is transferrable in such a way that it can follow a person from one device to another and from one site to another (e.g., by tracking the percentage of users who utilize the APCP on multiple devices or at multiple sites);
- (d) Developing and implementing a set of metrics, along with the strategies and the computer programs needed to collect and analyze data, that can be used to improve, scale up, and sustain the APCP; and
- (e) Developing a plan for sustainability of the implemented model(s).

Measures developed by the Federal steering committee (in consultation with the grantee) will also be included in the cooperative agreement to ensure the grantee's progress in deploying concepts that show promise of sustaining the deployment beyond this grant and scaling beyond this pilot project in the future.

The grantee will be required to collect and annually report data related to its performance on these measures in the project's annual and final performance reports to the Department. The Department may require more frequent reporting. The annual performance reports must include both quantitative and qualitative information sufficient to assess the quality, relevance, and usefulness of the implementation of the pilot project and the objectives and outcomes for that year. The data used must be valid verifiable.

INTERGOVERNMENTAL REVIEW OF FEDERAL PROGRAMS

EXECUTIVE ORDER 12372

(INTERGOVERNMENTAL REVIEW OF FEDERAL PROGRAMS)

This program falls under the rubric of Executive Order 12372 (Intergovernmental Review of Federal Programs) and the regulations in 34 CFR Part 79. One of the objectives of the Executive order is to strengthen federalism--or the distribution of responsibility between localities, States, and the Federal government--by fostering intergovernmental partnerships. This idea includes supporting processes that State or local governments have devised for coordinating and reviewing proposed Federal financial grant applications.

The process for doing this requires grant applicants to contact State Single Points of Contact for information on how this works. Multi-state applicants should follow procedures specific to each state.

Further information about the State Single Point of Contact process and a list of names by State can be found at:

http://www.whitehouse.gov/omb/grants_spoc

Absent specific State review programs, applicants may submit comments directly to the Department. All recommendations and comments must be mailed or hand-delivered by the date indicated in the actual application notice to the following address: The Secretary, EO 12372--CFDA# [commenter must insert number--including suffix letter, if any], U.S. Department of Education, room 7E200. 400 Maryland Avenue, SW., Washington, DC 20202.

Proof of mailing will be determined on the same basis as applications (see 34 CFR §75.102). Recommendations or comments may be hand-delivered until 4:30 p.m. (Eastern Time) on the closing date indicated in this notice.

Important note: The above address is not the same address as the one to which the applicant submits its completed applications. **Do not send applications to the above address.**

PROGRAM APPLICATION INDIRECT COST INSTRUCTIONS

The Department of Education (ED) reimburses grantees for its portion of indirect costs that a grantee incurs in projects funded by the Rehabilitation Services Administration Disability Innovation Fund – Automated Personalization Computing Project, CFDA 84.____. Any grantee charging indirect costs to a grant from this program must use the indirect cost rate (**ICR**), negotiated with its *cognizant agency*, i.e., either the Federal agency from which it has received the most direct funding, subject to indirect cost support, the particular agency specifically assigned cognizance by the Office of Management and Budget or the State agency that provides the most subgrant funds to the grantee.

Note: Applicants should pay special attention to specific questions on the application budget form (ED 524) about their cognizant agency and the ICR they are using in their budget. If an applicant selected for funding under this program has not already established a current ICR with its cognizant agency as a result of current or previous funding, ED will require it to do so within 90 days after the date the grant was issued by ED. Applicants should be aware that ED is very often *not* the cognizant agency for its own grantees. Rather, ED accepts, for the purpose of funding its awards, the current ICR established by the appropriate cognizant agency.

An applicant that has not previously established an indirect cost rate with the Federal government or a State agency under a Federal program and that is selected for funding will not be allowed to charge its grant for indirect costs until it has negotiated a current indirect cost rate agreement with its cognizant agency.

Applicants are encouraged to use their accountant (or CPA) to calculate an indirect cost rate using information in the IRS Form 990, audited financial statements, actual cost data or a *cost policy statement* that such applicants are urged to prepare (but NOT submit to ED) during the application process.

Applicants should use this proposed rate in their application materials and indicate which of the above methods was used to calculate the rate. Guidance for creating a cost policy statement can be obtained by sending an e-mail to IndirectCostGroup@ed.gov.

Applicants with questions about using indirect cost rates under this program should contact the competition manager shown elsewhere in this application package.

COMMON QUESTIONS AND ANSWERS

Q. What happens to my application after it is received in the Department?

- A. The Department's Application Control Center receives each application, assigns each an identifying number (PR/Award number), confirms receipt of applications, and sends the applications to the appropriate program office, which screens them for eligibility. The program conducts a peer review of all eligible applications sent to a program competition, ranks them and recommends the highest ranked applications for funding with exceptions as provided by law. The responsible official for the applicable program reviews the program office's recommendations, checks the adequacy of the documentation supporting the recommendations, and approves a final list, or slate, of recommended projects and funding amounts. RSA program staff discusses the recommendations with the successful applicants and award the grants.

Q. What happens to my application if the Department finds it to be ineligible?

- A. The Department immediately returns an application that does not meet the eligibility criteria for the particular program. A letter from the Department explaining why it is not being reviewed in the competition accompanies the application.

Q. How does the Department review an application?

- A. Each application is assessed by knowledgeable persons from outside and sometimes inside the Department who are asked for their judgment about the quality and significance of the proposed project. These people represent a diversity of disciplines and institutional, regional, and cultural backgrounds. The advice of these experts is compiled by Departmental staff members who comment on matters of fact or on significant issues that would otherwise be missing from the review. The results are then presented to the official responsible for the program who approves the recommendations for funding.

Q. What criteria do the reviewers use when scoring an application?

- A. Reviewers score each application using the selection criteria published in the *Federal Register* as part of the program regulations, which are given in Section E of this application package. Reviewers are instructed to use only the published criteria.

Q. Is a recommended application guaranteed funding?

- A. No. Funding is not final until discussions have been successfully concluded and a grant award notification has been signed by the grants office and mailed to the applicant.

Q. How do the invitational, competitive and absolute priorities differ?

A. Invitational Priority

The Secretary may simply invite applicants to meet a priority. However, an application that addresses invitational priorities receives no competitive or absolute preference over applications that do not meet this priority.

Competitive Priority

If a program uses weighted selection criteria, the Secretary may award selection points to an application that meets the priority. These points are in addition to any points the

application earns under the selection criteria. The notice states the maximum number of additional points that the Secretary may award to applications that meet the priority in a particularly effective way. Or the Secretary may simply select applications that meet the competitive priority over applications of comparable merit that do not meet the priority.

Absolute Priority

Under an absolute priority, the Secretary may select for funding only those applications that meet the priority.

Q. Can changes in the size of subsequent year awards be made after the multi-year budget has been negotiated?

- A. Yes, a grantee can renegotiate his or her multi-year budget and may be awarded additional funds if sufficient justification is presented to the Secretary and funds are available. Also, funds can be decreased if it is determined that the multi-year budget was overestimated.

Q. How will funding continuation decisions be made?

- A. Grantees will be required to complete annual performance reports that describe the projects' accomplishments, evaluations and finances. These performance reports, along with other information, will be used by the Department to decide whether to continue funding projects.

DUNS NUMBER INSTRUCTIONS

Note: Check with your fiscal office to see if your institution has an assigned DUNS before contacting Dun & Bradstreet

D-U-N-S No.: Please provide the applicant's D-U-N-S Number. You can obtain your D-U-N-S Number at no charge by calling **1-800-234-3867** or by completing a D-U-N-S Number Request Form. The form can be obtained via the Internet at the following URL:

http://www.dnb.com/US/duns_update/index.html

The D-U-N-S Number is a unique nine-digit number that does not convey any information about the recipient. A built in check digit helps assure the accuracy of the D-U-N-S Number. The ninth digit of each number is the check digit, which is mathematically related to the other digits. It lets computer systems determine if a D-U-N-S Number has been entered correctly.

Dun & Bradstreet, a global information services provider, has assigned D-U-N-S numbers to over 43 million companies worldwide. **Live help Monday-Friday 8am-6pm (EST) Dial 1.800.234.3867**

Note: Electronic submission via Grants.gov must use DUNS number your organization used when it registered in the Central Contractor Registry.
